

HACKATHON RULES

Registration

- All attendees should submit their registration through the hackathon-website/Eventbrite
- Showing up on the day of the hackathon without a registration will not guarantee you a spot!
- All attendees agree in making film or photos during the healthcare hackathon, as well as their public exploitation and reporting.

Qualification

- Attendees from all backgrounds, genders and geographies are welcome.
- There is no age restriction to attend the hackathon.
- In case you are under 18, you need a signed waiver from the parent/legal guardian authorizing you to attend the hackathon.
- Committee members are not eligible to participate in the hackathon. They may however assist teams in the coding/development phase.
- There is no country restriction but you must be eligible to receive prizes (in case you win) and be legal to pay taxes on prize winnings.

Team

- There are no limits in the size of the team.
- Ideally, a team should be composed of designers, developers and people with medical or health economic expertise. This is not prerequisite for the hackathon participation.
- All teams should have a team name
- A team can submit only one entry for the hackathon. Participation at the hackathon is subjected on a "per-team" basis meaning you are not allowed to be in more than one team at the event.
- The healthcare-hackathon slack channel can be used for determining teams in advance of the hackathon.

Project Development

- The central development platform is IBM Cloud PaaS (cloud.ibm.com) incl. the AI and Big Data services. All software development tools like IDE, programming languages, etc. can also be used. Other cloud services are permitted as long as the data does not leave the EU.
- Before the hackathon starts it is allowed to try and train with the promo codes.
- In order to ensure the competition conditions for all attendees, the entire code has to be developed within the healthcare hackathon event 05.-06.06.2019. The use of existing open source frameworks and projects is allowed and desired.
- All visual design assets can be created before the healthcare hackathon start date. All content assets should conform to the Creative Commons License agreement standard.
- All intellectual property resulting from the healthcare hackathon must be published as open source under the MIT license (<https://opensource.org/licenses/MIT>).
- The results of the project must be uploaded to <https://git.eu-de.bluemix.net/healthhack/mainz2019>

Attendee Code of Conduct

Our hackathon is dedicated to providing a harassment-free experience for everyone, regardless of gender, gender identity and expression, age, sexual orientation, disability, physical appearance, body size, race, ethnicity, nationality, religion, previous hackathon attendance or computing experience (or lack of any of the aforementioned). We do not tolerate harassment of hackathon participants in any form. Sexual language and imagery is not appropriate at any hackathon venue, including hacks, talks, workshops, parties, social media and other online media. Hackathon participants violating these rules may be sanctioned or expelled from the hackathon at the discretion of the hackathon organizers.

Harassment includes offensive verbal comments related to gender, gender identity and expression, age, sexual orientation, disability, physical appearance, body size, race, ethnicity, nationality, or religion, sexual images in public spaces, deliberate intimidation, stalking, following, photography or audio/video recording against reasonable consent, sustained disruption of talks or other events, inappropriate physical contact, and unwelcome sexual attention. Photography is encouraged, but other participants must be given a reasonable chance to opt out from being photographed. If they object to the taking of their photograph, comply with their request.

Participants asked to stop any harassing behavior are expected to comply immediately. As this is a hackathon, we like to explicitly note that the hacks created at our hackathon are equally subject to the anti-harassment policy. Sponsors and partners are also subject to the anti-harassment policy. If you are being harassed, notice that someone else is being harassed, or have any other concerns, please contact a member of hackathon staff immediately.

Hackathon staff will be happy to help participants contact any local security or local law enforcement, provide escorts, or otherwise assist those experiencing harassment to feel safe for the duration of the hackathon. We value your attendance. If a participant engages in harassing behavior, the hackathon organizers may take any action they deem appropriate. This includes warning the offender, expulsion from the hackathon with no refund (if applicable), or reporting their behavior to local law enforcement.

We expect participants to follow these rules at hackathon and workshop venues and hackathon related social events!
